SEARCH AND RESCUE LIGHTING SOLUTIONS

Sixpack Mountain Rescue Light

The Six Pack Mountain Rescue light is a high-performance tool, offering 5800 lumens for exceptional visibility in challenging environments. With a broad, consistent beam and water-resistant design, it delivers reliable performance in wet conditions. Runtime from 2 to 36 hours makes it perfect for critical rescue missions in rugged terrain.

Max Lumen Output	3,600
Run Time	2-36 hours
Waterproof Rating	IP67
Weight	386g
Charge Time	8 hours
Diameter	65mm
Length	118mm
Casing	Anodised 6063 Aluminium

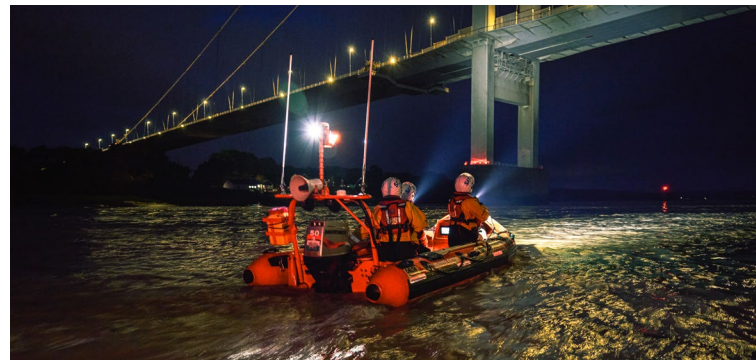

Action 1-9 Extended Run Search Light

Weighing just 242 grams, the Action 1-9 delivers 1000 lumens of powerful, focused light. Designed for extended range, its beam reaches up to 315 meters. The high-capacity lithium-ion battery provides up to 16 hours of use, with a rugged, waterproof casing that can withstand tough environments.

Max Lumen Output	1,000
Run Time	4 -16 hours
Waterproof Rating	IPX8 (50m)
Weight	242g
Charge Time	4 hours
Diameter	47mm
Length	118mm
Casing	Anodised 6063 Aluminium

Crew Carbon

Floating Torch and Search Light +
Water Activated Strobe

The Crew Carbon combines a torch and water-activated strobe in one compact, floating design. Whether used on land or underwater, it provides versatile illumination. In emergencies, it automatically starts strobing when submerged, marking a clear location for rescue teams for up to 20 hours.

Max Lumen Output	1,000
Run Time	1.5 - 6 hours
Waterproof Rating	IPX8 (5m)
Weight	95g
Charge Time	4 hours
Diameter	37mm
Length	130mm
Casing	Anodised 6063 Aluminium

Action 1-9 Pocket Search Light

The Action 1-9 provides reliable, focused lighting with multiple brightness settings, ideal for search and rescue. Its lightweight design and waterproof construction ensure durability in extreme conditions. Easy to handle and with rapid USB charging, it's an essential tool for life-saving operations.

Max Lumen Output	1,000
Run Time	1.5 - 6 hours
Waterproof Rating	IPX8 (50m)
Weight	121g
Charge Time	3 hours
Diameter	40mm
Length	115mm
Casing	Anodised 6063 Aluminium

HT 1000

Head Torch

The HT1000 provides up to 1000 lumens, perfect for search and rescue. Its ergonomic, lightweight design ensures comfort during extended missions. With an adjustable band and powerful Cree LED, it delivers high-performance lighting while remaining stable during active operations.

Max Lumen Output	1,000
Run Time	1.5 - 48 hours
Waterproof Rating	IP65
Weight	145g
Charge Time	3 hours
Diameter	20mm
Length	49mm
Casing	Anodised 6063 Aluminium

HT GO 2

Head Torch

The HT GO 2 offers cutting-edge durability with a compact design. Weighing just 74g, it integrates seamlessly into your gear, providing efficient and reliable lighting in search and rescue operations. Cable-free design keeps it lightweight and easy to use in any emergency scenario.

Max Lumen Output	450

Helmet Mounts & Brackets

3M Side Mount for Helmets

A durable, low-profile solution for attaching lights to helmets. Designed for search and rescue, it ensures reliable, hands-free illumination in extreme conditions.

Helmet Attachment Clip for Manta Helmets

This secure and stable bracket integrates seamlessly with Manta helmets, keeping your light firmly in place during critical operations.

Helmet Attachment Clip for Petzl Helmets

Designed for easy attachment to Petzl helmets, this bracket offers secure, hands-free lighting during demanding search and rescue missions.

Action 1-9 Charging Dock

This magnetic, wall-mounted charging dock ensures your searchlight is always fully charged and ready for action. Featuring rapid charging and secure attachment, it integrates with both USB and vehicle power systems for reliable, accessible lighting in emergencies.

Crew Carbon Light Mount

This low-profile mount securely holds the Crew Carbon light in place during rescue operations. The mount includes a USB charging lead and a silicone band to ensure the light stays ready for action, even in harsh environments. Simple installation with adhesive or permanent mounting options.

A group of four people, two men and two women, are posed in front of a dark-colored truck at night. They are all wearing bright red jackets and white helmets with orange and black accents. The truck has emergency lights on its roof, which are illuminated, casting a blue glow. The scene is set outdoors with trees in the background.
