

# EXPOSURE MARINE

## QUICKSTART GUIDE

SPOT-ME • SPOT-ME R

## **(F) INSTRUCTIONS (E) INSTRUCCIONES (D) ANLEITUNG (I) ISTRUZIONE**

To change the battery hold the aluminum part of the head and the bottom and pull. If required a pull and twist motion can assist further.

The silicone band supplied with your light can be used to both securely hold the Spot-Me onto a webbing strap and can be used to help prevent the light from accidentally switching on, by pushing the top and bottom rings together whilst the light is not in use.

It is advised to test your light switches on before each trip and to wash it in fresh water if it has been used in a salt water environment.
